ABOUT

THE JOHN WHELESS MEMORIAL GOLF CLASSIC

John Wheless was a native of Jackson, MS, and a resident of Shreveport for 56 years. He was a lifelong member of St. Mark's Episcopal Cathedral, where he served on the Church Vestry for many years. As an alumnus of LSU Baton Rouge and a member of Sigma Alpha Epsilon, John's commitment extended beyond the realm of his faith and education. He also contributed his time and expertise as a valued member of the Board of St. Luke's Episcopal Mobile Medical Ministry. Moreover, he embraced his family's legacy as a fourth-generation co-owner of Allen Millwork, Inc.

With a passion for his family and friends, the game of golf, and the LSU Tigers, John's spirit radiated through his every endeavor. In a tribute to honor his father's enduring legacy, his son Jackson Wheless, a local commercial real estate agent with Sealy Real Estate Services, memorializes his father's legacy with this inaugural Golf Classic. This meaningful event serves as a testament to his father's love for the sport while also raising funds to support the work of St. Luke's Episcopal Medical Ministry.

St. Luke's Episcopal Medical Ministry is a 501(c)(3) non-profit organization that operates as a compassionate and dedicated mobile medical ministry in the heart of Northwest Louisiana. Through the utilization of a medical RV, they offer free preventive health screenings, fundamental health services, comprehensive health education, and medical referrals to the underprivileged individuals residing in both rural and urban Louisiana communities encompassing Caddo, Bossier, Webster, Desoto, and Claiborne parishes.

This organization boasts an extraordinary team of volunteers, comprised of skilled medical professionals and compassionate individuals from various backgrounds. They have been providing their medical services since the year 2008 and continue to forge deep connections within the communities they serve, while consistently expanding the range of services they deliver.

Revitalizing the golfing experience for 100th anniversary

Recently announced, Querbes Park Golf Course will undergo \$700,000 of improvements.

To that end, Querbes will soon feature a new, larger putting green, among other improvements. To help, Nathan Barrow, Querbes' PGA Pro, enlisted the help of Jim Lipe, considered by many to be one of the best landscape architects and golf course designers in the country.

"He drew us up plans for an all-new putting green, chipping green, and helped us redesign the cart path areas that will improve the flow around the congested (tees). We took apart and deleted the old 6,000-square-foot putting green, and he built a completely different shape – with nice undulations – 8,000-square-foot putting and chipping green that is now away from the cypress trees. It's not going to have any damage from their roots. It's going to be in the full sun all day."

There will also be 18-24 new parking spaces around the green.

"We were looking for some things we could do to improve the facility in conjunction with our centennial celebration in 2024," said Nathan Barrow, Querbes' PGA Professional. "We wanted to make a statement – an impact – on what the golfers experience from the moment they pull across the bridge and enter the golf course."
